Pokretni pregradni paneli za razdvajanje se mogu spojiti u različitim pozicijama. Paneli mogu imati sopstvenu podlogu s obzirom na mogućnost montiranja jedne ili više nogu koje se regulišu u zavisnosti od uslova u kojima se koriste.

Zid Duplex, mat ili od stakla i Duplex Light se sa lakoćom spajaju i obezbeđuju jedinstvo konstrukcije. Izuzetno fino urađene ivice zida Duplex omogućavaju njegovo spajanje sa pregradnim ili pokretnim panelima.
